Our Profile

AMI Maritime Pte Ltd is a registered and established Company in Singapore.

We are the distributor & service center of AMI Marine Ltd – a British VDR/S-VDR pioneer & data interfacing expert.

We are a one-stop center for marine communication, navigation equipment & services. AMI Maritime represents numerous world-class manufacturers of marine communication, navigation electronic equipment.

Together with our two China offices, AMI Maritime has a worldwide sales and technical network to support its clients, which covers Singapore, China, Malaysia, Indonesia, Vietnam, Korea, India, Middle East, west coast of North America, and most of the European ports. AMI Maritime has a strong and experienced technical team and established a service center in these Regions. We are geared towards service excellence to ensure that our clients' technical matters are resolved efficiently.

AMI Maritime aims to be the premier supplier of communication & navigation equipment in the marine industry by providing reliable and technically advanced innovative solutions to our customers in the form of supply, installation, commissioning and after sales support, with our extended GMDSS radio survey support.
